Re: NPDES Permit No. AK-002254-3, Eagle River WTF

Dear Ms. See:

A National Pollutant Discharge Elimination System (NPDES) permit has been issued to the referenced facility. Enclosed is a copy of the transmittal letter, the Agency's Response to Comments, and a copy of the permit, and the final total maximum daily loads (TMDLs) for copper, lead, chlorine and ammonia in the Eagle River. The permit will become effective on the date indicated unless a request for an evidentiary hearing meeting the requirements of 40 CFR 124.74 is received within 30 days.

Sincerely,

Charles E. Findley
Director, Water Division

Mr. Mark Premo, General Manager
Anchorage Water and Wastewater Utility
3000 Arctic Boulevard
Anchorage, Alaska 99503-3898

Re: Municipality of Anchorage: Eagle River Wastewater Treatment Plant
NPDES Permit No. AK-002254-3

Dear Mr. Premo:

We are reissuing the above-referenced National Pollutant Discharge Elimination System (NPDES) permit. The enclosed document authorizes the referenced facility to discharge to the receiving waters indicated in the permit. Also included is the Agency's response to the comments received during the public notice period on the draft permit and the final total maximum daily loads (TMDLs) for copper, lead, chlorine, and ammonia in the Eagle River.

This permit will become effective 30 days after the issuance date unless a request for an evidentiary hearing which meets the requirements of 40 CFR 124.74 is received. A copy of these requirements is enclosed for your information.

Sincerely,

A handwritten signature in black ink that reads "Charles E. Findley". The signature is written in a cursive style with a long, sweeping tail on the "y".

Charles E. Findley
Director, Water Division
