

MSGP Requirements for Currently Unpermitted Facilities

Facilities that did not obtain industrial storm water coverage under the MSGP-2008 prior to its expiration date of September 29, 2013 will not be able to obtain permit coverage until the permit is reissued. These facilities may not submit new Notices of Intent for coverage under the expired permit and are recommended to develop and implement a storm water pollution prevention plan (SWPPP) and sector specific BMPs as described in the MSGP-2008. DEC will exercise enforcement discretion to those facilities which have implemented a SWPPP and are following sector specific requirements until they can officially obtain permit coverage under the reissued permit. For further information about the MSGP reissuance you may click on the following link.
