

Seafood Processing Waste Permitting and Compliance Workshop Agenda

Day 1 April 24, 2012

8:30-9:00 am Registration

9:00-9:15 am **Introduction**

- Workshop Business Matters
- Workshop Goals and Intent

9:15-9:30 am Module #1 **Overview of the (APDES) permitting program**

- Brief Clean Water Act (CWA) Introduction including CWA goals and purposes
- Brief overview of the Alaska assumption of the NPDES Permitting Program (Alaskan Primacy and the APDES Program)

9:30-10:00 am Module #2 **History of the seafood processing waste permitting program**

- Effluent Limit Guideline Promulgation
- Review of the seafood processing General Permits (GP) and Individuals Permits (IP) in place at time of primacy transfer.
- Permitting Universe
- Module #1/Module #2 Q&A

10:00-10:15 am **Break**

10:15-11:00 am Module #3A **Permitting the APDES seafood processing sector**

- Review Exercise for Modules #1/#2
- Why are there so many permits? Discussions on the purpose for the various permits.
- Why is DEC requiring so much location information?

11:00-11:45 am Module #3B **How to apply for an individual APDES permit**

- DEC Seafood Permit Application Portal Webpage-Individual Permit
- Module #3A/3B Q&A

11:45am -1:00 pm **Lunch on your own**

1:00 -1:45 pm Module #3C **How to apply for coverage under an APDES general permit**

- Review Exercise for Modules #3A/3B
- DEC Seafood Permit Application Portal Webpage-GP-(Notice of Intent)
- Waivers/Major Modification Requests
- Q&A Module 3C

1:45-2:15 pm Module #4A **Permittee requirement for GP post authorization or IP Issuance**

- Permit/Authorization-Discussions include what actions are necessary to maintain the permit.
- Brief overview of the typical seafood processing APDES permit monitoring requirements

2:15-2:30pm **Break**

2:30-3:00 pm Module #4B **Grinder and waste conveyance inspections/sampling**

- What needs to be inspected? Inspections required by the permittee:
- Records/Logs that permittees are required to maintain.

3:00-3:30 pm Module #4C **Sea Surface and Shoreline Monitoring**

- What needs to be observed? Permittee required observations:
- Tide cycle considerations
- Records/Logs/Photographs

3:30-4:00 pm Module #5 **Sea Floor Surveys**

- What is a Seafloor Survey? Information about seafloor survey data collection and purpose.
- Qualifications/Repeatability/Accuracy/Safety

4:00-4:15 pm **Review Exercises Modules 3-5**

4:15-4:30 pm **Q&A Day 1. Modules 1-5**

Day 2 April 25, 2012

9:00-9:30am Module #6 **Effluent Monitoring and Receiving Water Monitoring**

- Mixing zone information
- Time frames for conducting monitoring
- Brief Parameter discussion including vessels and shorebased facilities

9:30-10:30am Module #6A **QAPP and BMP for In House and Offsite Testing**

- Guidance Documents
- State Quality Assurance Data Requirements (Website and Resources Available)
http://dec.alaska.gov/water/wqapp/wqapp_index.htm
- In House Testing and Sampling SOPs
- Testing Methods and Quality Assurance

10:30 -10:45am **Break**

10:45- 12:00pm Module #6B **Laboratory Analysis Demonstrations**

- Laboratory Requirements for Sample Handling, Shipping, and Preservation
- Laboratory Presentation (pH, TRC, Temperature, Color, DO, Salinity)
- Instrument Calibration & Maintenance
- Data reporting and maintenance

12:00 -1:15 pm **Lunch on your own**

1:30 -2:30pm Module #7 **Compliance Inspections and Other Issues**

- QAPP and BMP for Waste Treatment
- Training and Implementation
- Records and Required paperwork that will be inspected
- Reporting Upsets and Violations (24 hour and annual report)
- Corrective Action and Response
- Monitoring logs and Processing location log
- Sample ports and Outfall system requirements
- Working with vessels for compliance (Shorebased Facilities)
- Annual Reports (Deadlines and Content)

2:30-3:00pm **Evaluations and Closing Q&A**

3:00-3:15pm **Break**

2:45-4:00pm Module #8 **Understanding the Alaska Offshore Seafood Waste Processing General Permit, AKG523000.**

- Permit Coverage (Location Specific Issues)
- Discharge Limits and Time Limits
- Survey Requirements
- Treatment Requirements
- Monitoring Requirements (2013)
- Training Schedule for Monitoring (October 2012)
