RE: University of Alaska Fairbanks (UAF)
Air Quality Permits AQ0316MSS07, AQ0316MSS08, and AQ0316TVP03

ATTN: Grace Germain

UAF is confirming the removal from service of EU 23 from the UAF campus emission inventory and all applicable requirements associated with the emission unit, as an amendment to UAF's applications for Minor Permits AQ0316MSS07 and A0316MSS08 and Title V permit renewal AQ0316TVP03. The 235 kW Detroit Diesel generator engine was removed from service on May 14, 2013.

"Based on information and belief formed after reasonable inquiry, I certify that the statements and information in and attached to this document are true, accurate, and complete."

Sincerely,

DocuSigned by:
A handwritten signature in black ink that reads "Jennifer Campbell". The signature is enclosed in a blue, rounded rectangular box that also contains the text "DocuSigned by:" above it and a long alphanumeric string "9154516DEE9D481..." below it.

Jennifer Campbell

Acting Associate Vice Chancellor for Facilities Services
