| Brief Description of Supplemental Information or Application Revision: Revising B-0, and B-1 forms to account for a change in the emission unit inventory. EU ID 62 and 74 are being replaced with EU 62A and 74A. The change does not cause an increase in emissions, as measured on a PTE-to-PTE basis, in accordance with 18 AAC 50.502(c)(3). Emission calculations are included in the attachments to this submittal. | | |

Statement of Certification:

Based on information and belief formed after reasonable inquiry, I certify that the statements and information in and attached to this document are true, accurate, and complete.
