Re: Petro Marine Services – Arness Dock: ADEC Spill # 1989230128902
Site Closure Approved

Dear Mr. Cox:

Thank you for searching your files for any record of this release. A site inspection of this site that was formerly utilized by Petro Marine Services, was conducted on 13 July 05. No obvious contamination issues were observed during that inspection. Site closure is approved for this site.

I have included a copy of our file on this release for your reference.

In conclusion, ADEC has determined that the former Petro Marine Services – Arness Dock facility is approved for site closure and no further remedial action is required. However, please be informed that if contamination is identified in the future that may pose a risk to human health or the environment, additional investigative and/or corrective action work may be required.

If you have any questions or need further assistance, please contact me at (907) 262-5210, Ext. 233.

Sincerely,

Don Seagren
Environmental Specialist
