Contaminated Sites Remediation Program  
410 Willoughby Ave., Suite 105  
Juneau, AK 99801-1795

Phone: 465-5390

Fax: 465-5262

March 4, 1997

Mr. Todd McGovern  
Unocal Energy Resources Division  
909 West 9th Avenue, P.O. Box 196247  
Anchorage, Alaska 99519-6247

Dear Mr. McGovern:

Re: Trading Bay Production Facility  
Spill (& C.O.) No. 91-23-01-053-02  
Modification of the TBPF bluff top compliance line

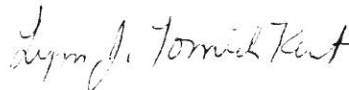

After a review of the November 1996, *PHASE I AIR SPARGING SYSTEM STARTUP AND INITIAL MONITORING REPORT* by Geosphere Inc., and the information presented by Unocal in our December 12, 1996, meeting, and in consideration of subsequent information; the Department agrees to make the following modification to the Compliance Order by Consent (COBC):

The bluff top groundwater cleanup level defined for the east property boundary sentry wells is eliminated from Section 15 of Compliance Order No. 91-23-01-053-02,. The beach seep cleanup levels at the east property boundary will remain as stated in Section 15 of the COBC.

If Marathon, Forcenergy, and Unocal concur with this modification, please obtain signatures of officers authorized to bind the companies below and return this original to me.

Thank you for your cooperation. If you have any questions, please contact Mr. Robert Krogseng of my staff at 262-5210.

Sincerely,

Lynn J Tomich Kent  
Program Manager

Mr. Todd McGovern  
March 4, 1997
