North Pole, AK 99705

Re: Institutional Controls verification for Residence - 2954 Circle Loop Road, in North Pole, Alaska

Dear Ms. Williams:

The Contaminated Sites Program is conducting an audit of contaminated sites closed with conditions (Institutional Controls) to verify that closure stipulations such as periodic monitoring and reporting are being performed by the responsible party of record as required under state law (18 AAC 75.375).

In October 2015 the Alaska Department of Environmental Conservation (ADEC) granted a Cleanup Complete Determination – Institutional Controls (Decision Document) for the 2954 Circle Loop Road Residence site that included conditions requesting that the Institutional Controls (ICs) Agreement Page be signed and returned to ADEC within 30 days of receipt of the letter. Based on our records, we have not received a signed copy of this document as requested. The Decision Document outlining the original request is enclosed. Additionally, the deed notice that was recorded on the property is also enclosed for your reference.

Requested Documentation

Please review, sign, and return the signed copy of **Attachment A: Cleanup Complete-ICs Agreement and Signature Page** to the department. A blank copy of the signature page is enclosed with this letter. The signed copy can be mailed, faxed, or emailed to DEC.ICUnit@alaska.gov.

Please be advised that the following Institutional Controls as established in the 2015 Decision Document remain in effect:

- Any future change in land use may impact the exposure assumptions cited in the 2015 Decision Document. If land use and/or ownership changes, these management conditions may not be protective and ADEC may require additional remediation and revised conditions. Therefore, the landowner shall report to ADEC every 5 years to document land use, or report as soon as the

September 9, 2016

landowner becomes aware of any change in land ownership and/or use, if earlier. The report can be sent to the local ADEC office or submitted electronically to DEC.ICUnit@alaska.gov. Please note: your five year review will be due in October 2020.

- Installation of groundwater wells requires ADEC approval.
- Sub-surface soil contamination is located near the north and east side of the garage. When contaminated soil becomes accessible or when construction is planned over the contaminated area, contact ADEC to determine if a workplan is needed.
- Any proposal to transport soil or groundwater off-site requires ADEC approval in accordance with 18 AAC 75.325. A "site" [as defined by 18 AAC 75.990 (115)] means an area that is contaminated, including areas contaminated by the migration of hazardous substances from a source area, regardless of property ownership. (See site figure attached in the Decision Document.) This is a standard condition.
- Movement or use of contaminated material in a manner that results in a violation of 18 AAC 70 water quality standards is prohibited. This is a standard condition.

The ADEC is concerned that these site conditions remain protective. Failure to maintain these requirements may result in re-opening of the site by the Contaminated Sites Program, in which case, further remediation could be mandatory.

Please provide the requested documentation either by hard copy letter or email no later than **October 10, 2016**. If you have any questions about these requirements, please do not hesitate to contact me at (907) 465-5229 or evonne.reese@alaska.gov.

Sincerely,

Evonne Reese
Environmental Program Specialist
Institutional Controls Unit

2015 Decision Document
Recorded Deed Notice

You may submit any needed documentation electronically. If your submittal exceeds 8 megabytes, you may submit it to me through the Alaska Zendro "drop-off" option at <https://drop.state.ak.us/drop/>. The Division of SPAR/Contaminated Sites Program prefers and encourages electronic submittals.

Attachment A: Cleanup Complete-ICs Agreement and Signature Page*

The landowner, Cindy L. Williams, agrees to the terms and conditions of the Cleanup Complete Determination – Institutional Controls, as stated in the decision letter dated October 25, 2015 for the Residence - 2954 Circle Loop Road site (File No. 100.38.136/Hazard ID: 3220). Failure to comply with the terms and conditions of the determination may result in ADEC reopening this site and requiring further remedial action in accordance with 18 AAC 75.380.
