Re: Chignik Lake ANTHC Water Line Upgrade

Dear Mr. Fish:

The Alaska Department of Environmental Conservation (ADEC), Contaminated Sites Program is aware of the presence of petroleum contamination within the Village of Chignik Lake, south of an unnamed creek. The creek crosses the Third Street Right-of-Way (ROW) between the intersection of Third Street and D Street to the south and the intersection of Third Street and B Street to the north. The approximate area of the petroleum impact is shown by a red triangle on the attached Figure. Please note that the presence of this contamination must be accounted for when planning for or executing any subsurface work in this area, such as utility repairs or upgrades, excavation dewatering, etc. In addition, impacted materials (soil or water), must first be sampled to ensure that any disposal or reuse of the material is consistent with Alaska Oil and Other Hazardous Substances Pollution Control regulations.

This site information is a matter of public record and is available through ADEC's online database record at: <http://dec.alaska.gov/Applications/SPAR/PublicMVC/CSP/SiteReport/26533>

The ADEC will issue a reminder letter such as this on a scheduled basis, once per year. If you have any questions regarding this site, please contact me at (907) 465-5229 or [evonne.reese@alaska.gov](mailto:evonne.reese@alaska.gov) and I will be glad to assist you.

Sincerely,

A handwritten signature in blue ink that reads "Evonne Reese".

Evonne Reese  
Environmental Program Specialist  
Institutional Controls Unit

Attachment: Figure identifying area of petroleum contamination  
Electronic cc: Johnny Lind, Village of Chignik Lake, Council President

**Note: This letter is being transmitted to you in electronic format only. If you require a paper copy, let us know and we will be happy to provide one to you. In the interest of reducing file space, the Division of SPAR/Contaminated Sites Program has transitioned to electronic transmission of project correspondence.**
