Re: Cook Inlet Processing - Uganik
ADEC Hazard ID: 3941
ADEC Approval - Site Characterization Work Plan

Dear Mr. Shupe:

On April 30, 2019, the Kenai Area Office of the Alaska Department of Environmental Conservation (ADEC), received Environmental Management, Inc.'s (EMI) Site Characterization Work Plan – Area2 for the Cook Inlet Processing - Uganik "site" which is located in Uganik Bay, Kodiak Island. EMI prepared this April 30th work plan on behalf of Polar Equipment, Incorporated. Thank you for ensuring we received this work plan for the required regulatory review and processing.

We have completed our review, and this work plan is hereby approved.

If you have any questions about this ADEC work plan approval decision letter, or any other aspect of this project, you may contact me at (907) 262-3422, or via e-mail at paul.horwath@alaska.gov

Sincerely,

A handwritten signature in blue ink that reads "Paul Horwath".
