Re: Tesoro Northstore #76, 3600 E Palmer-Wasilla Hwy
Work Plan for Task 3 – Replace Treatment System with Groundwater Pump and Treat
ADEC Work Plan Approval

Dear Ms. Duarte:

On July 1, 2019, the Kenai Area Office of the Alaska Department of Environmental Conservation (ADEC), received Stantec's July 1, 2019 Work Plan for Task 3 – Replace Bio-Sparge Treatment System with a Groundwater Pump and Treat System for the Tesoro Northstore #76, 3600 E Palmer-Wasilla Hwy "site". This site is located at 3600 E Palmer-Wasilla Hwy, near Wasilla. Thank you for ensuring we received this work plan for the required regulatory review and processing.

We have completed our review, and this work plan is hereby approved.

If there are any questions about this ADEC work plan approval decision letter, or any other aspect of this project, you may contact me at (907) 262-3422, or via e-mail at paul.horwath@alaska.gov [PS: *within the next three work days!* 😊]

Sincerely,

A handwritten signature in blue ink that reads "Paul Horwath".

Paul Horwath, P.E.
Project Manager
ADEC Contaminated Sites Program
