Re: Institutional Controls Verification for ARCO South Hanger Pad (File 300.38.271)

Dear Ms. Mead:

This letter is BPXA's verification of the Institutional Controls requirements for the ARCO South Hangar Pad site in Prudhoe Bay. BPXA confirms that there has been no removal of soil or groundwater off site and that there have been no changes in land use or ownership at site that would impact the exposure assumptions used by ADEC in the 2009 Record of Decision Document.

If you have any questions, please contact me at 564-5636, or at [mcanumc@bp.com](mailto:mcanumc@bp.com).

Sincerely,

Mike Mc Anulty
