Supplemental 2022 Work Plan for Task 4 - ADEC Approval

Mr. Monson:

On March 25, 2022 the Kenai Area Office of the Alaska Department of Environmental Conservation (ADEC), received Stantec's, Supplemental 2022 Work Plan for Task 4 for the Tesoro 2 Go Mart #101 "site" (Speedway Store 5313). This work plan is approved.

I have reviewed the compiled history of the site, and could not locate references to samples being collected for EDB, MTBE or lead as required in ADEC's Field Sampling Guidance, Appendix F. Could you please verify that screening samples have been collected from the source area? If no screening samples have been collected for these compounds, plan on collecting screening samples from representative source area wells.

If there are any questions regarding this approval, or any other aspect of this project, feel free to contact me at (907) 262-3412, or via e-mail at peter.campbell@alaska.gov

Sincerely,

Peter Campbell
