Mr. William T. Ellis  
Duffy's Roadhouse  
SR Box 370  
Gakona, Alaska 99586

Dear Mr. Ellis:

Re: Closure Duffy's Roadhouse  
1995 Tank Removals

The Alaska Department of Environmental Conservation (ADEC) has received your Consultant's January 31, 1997 Release Investigation report. Review of the report, indicates that soil sample results are less than ADEC cleanup levels. Stockpile soils also are below ADEC cleanup levels as indicated in the Consultant's November 17, 1995 report. Therefore, this meets the requirements for closure and no further action is necessary at this time.

A formal closure letter will follow within the next two weeks.

Thank you for your cooperation and best wishes on the sale of your property.

Should questions arise, contact me at 451-2166 and refer to file number 210.26.005.

Sincerely,

Eleanor Hung  
Environmental Specialist
