Dear Mr. LaTourell:

The Department has received notification from Gilfilian Engineering that the monitoring wells on the subject property have been properly decommissioned. Based on the information presented to date, the Department is not requesting any additional assessment, monitoring, or cleanup associated with the former underground storage tank.

However, in the future, should contaminated soil or water be identified, appropriate site assessment and cleanup will be required in accordance with applicable State regulations.

If you have any questions concerning this letter, please contact me at the Anchorage District Office at 349-7755.

Sincerely,

Robert Weimer  
Environmental Specialist
