Re: *Final PFAS Remedial Investigation Work Plan*
Haines Fuel Terminal, Haines, Alaska

Dear Mr. Baker:

The Alaska Department of Environmental Conservation (DEC) has received and reviewed the *Final PFAS Remedial Investigation Work Plan* for the Haines Fuel Terminal, prepared by Brice Environmental Services Corporation, and dated September 2024. This version of the work plan satisfactorily resolves all of DEC's comments. The draft-final version of the work plan was provisionally approved on June 28th pending resolution of a DEC comment regarding screening values for the surface water seep samples. This issue was resolved in a meeting on August 28th and the meeting minutes which document the resolution are included in Appendix I of this final work plan. This work plan is hereby approved in accordance with 18 Alaska Administrative Code (AAC) 75.335(b).
