Re: Review of March 2013 "Icicle Seafoods Inc, Egegik, Alaska, Work Plan for Collection of Land-Farm Samples" by BGES (Hazard ID# 4378)

Dear Mr. Guhlke;

The Alaska Department of Environmental Conservation (DEC) Contaminated Sites Program reviewed the March 2013 "Icicle Seafoods Inc, Egegik, Alaska, Work Plan for Collection of Land-Farm Samples" prepared by BGES, Inc. The proposed scope of work includes mixing and turning soils in the two land-farm areas twice during the 2013 field season, collecting and analyzing multi-incremental (MI) soils sample (including duplicates and triplicates) from the two land-farm areas, and preparing a summary report. The DEC approves of this work plan. Please contact me at (907) 269-7691 or via email at jake.gano@alaska.gov if you have any questions regarding this letter.

Sincerely,

A handwritten signature in blue ink that reads "Jake Gano".

Jake Gano, P.E.
Environmental Program Specialist
