

MEETING OF THE NCI GRS TACTICS GROUP

**February 3, 2004
Alaska Chadux
Anchorage, Alaska**

Attendees

John Kwietniak-co-chair
Dale Gardner-co-chair
John Brown
Derek Burrill
Keith Darby

Mark Fink
Mark Janes
Robert Scott
Tim Robertson

Summary

John Kwietniak of Tesoro Alaska opened the meeting, reviewed the agenda.

Tim Robertson reviewed GRS websites.

A correspondence from the Eklutna Village Tribe nominating the Eklutna and Susitna Rivers was discussed. It was agreed that Tim Robertson would draft a response and the co-chairs would sign. It should convey the decisions made in not developing these sites at this time, encourage additional information from the Tribes of the risks they identify and explore possibility of funding assistance from the Tribe for additional GRS development.

The status of the project was reviewed. After the incorporation of the edits produced by this meeting to the plans, they will be posted to the web for review by the workgroup for a period of 30 days. The comments generated will be compiled for the steering committee and if they present significant changes to the plans a meeting of the entire workgroup will be called to consider these changes. If no significant problems with the posted plans are brought forward during the comment period they will be considered approved as per the workgroup direction during the last full meeting.

The 17 NCI plans were reviewed and edits were made by the committee.
