You are approved to operate in 2019! A copy of your Permit has been emailed to you. The Permit must be posted at a conspicuous place at your Processing Facility. Keep a copy for your records.

This permit is not transferrable for change of ownership, location, or type of operation. Make sure to complete the 2019 ADEC Shellfish Processors Application when applying for a Permit.

Keep your info up to date to make sure you receive important information from DEC. HACCP records must be maintained and available for review.

Let us know about any changes - remember that you are only approved for what is listed on the permit! Contact our office before adding a new species or changing your processing equipment. There may be additional requirements.

Every Dealer must complete the Shellfish Dealer Education Training. The training is available: [http://dec.alaska.gov/eh/fss/shellfish/](http://dec.alaska.gov/eh/fss/shellfish/). A certificate of completion is available when the training is completed, and is required for permitting. Certification is good for 5 years.

If you have any questions about your permit please contact:
George Scanlan, Shellfish Permit Coordinator
Phone: 907-269-7638 or Fax: 907-269-7510
Email: george.scanlan@alaska.gov

Harvesting shellfish from closed or prohibited areas is illegal!
Apart from risks to human health, illegally harvesting shellfish can damage the reputation of the shellfish industry who work hard to provide a safe, high quality product. It is your responsibility to ensure you are harvesting, or purchasing, a harvest from an area that is classified, approved, and in the open status, or from a dealer that is listed in the ICSSL if the shellfish is purchased from outside of Alaska.
