

**STATE OF ALASKA  
ALASKA CLEAN/DRINKING WATER FUND  
GREEN PROJECT ASSESSMENT FORM**

As applicable under the EPA annual capitalization grants provided to the Alaska Clean Water Fund (ACWF) and Alaska Drinking Water Fund (ADWF) loan programs, a portion of funds appropriated shall be for projects to address green infrastructure, water or energy efficiency improvements or other environmentally innovative activities.” To meet this condition under the federal grant for administering these funds, this assessment form is provided to document this eligibility or what is termed a “Categorical” or “Business Case” justification, which will be reviewed by DEC for provisional compliance. For more information on green infrastructure development, please review the following EPA web site:

[http://cfpub.epa.gov/npdes/home.cfm?program\\_id=298](http://cfpub.epa.gov/npdes/home.cfm?program_id=298)

For those projects requiring a “Business Case,” Part 2 will require completion to qualify a “traditional project” as green; justification is broken down into two parts, technical and financial. The technical part should use information from a variety of sources such as maintenance or operation records, engineering studies, project plans or other applicable documentation to identify problems (including any data on water and/or energy inefficiencies) in the existing facility, and that clarifies the technical benefits from the project in water and/or energy efficiency terms. Financial justification needs to show estimated savings to a project based on the technical benefits, and demonstrate that the green component of the project provides a substantial savings and environmental benefit.

For more information and assistance in completing this assessment form, please contact the Municipal Matching Grants & Loans program in Anchorage at 907-269-7673, or in Juneau at 907-465-5300.

---

**PROJECT INFORMATION**

Project Name Crescent Lift Station Replacement Location Sitka

Project Type: \_\_\_\_\_ New Construction  Upgrades  
\_\_\_\_\_ Stormwater Infrastructure  Energy Efficiency Project  
\_\_\_\_\_ Water Efficiency Project \_\_\_\_\_ Innovative Environmental Project

Green Project Description: The project will replace obsolete existing pumps to improve energy efficiency. The estimated energy efficiency is 20 percent, but will have to be verified with a Business Case justification when replacement pumps have been selected.

## PART 1 – GREEN PROJECT CATEGORY & COSTS

Identify the most appropriate “Green” Clean Water or Drinking Water category project type. Note, any selection with (BC) at the end will require a Business Case demonstration.

**ENERGY EFFICIENCY** – the use of improved technologies and practices to reduce the energy consumption of water quality projects.

\_\_\_\_\_ Wastewater/water utility energy audits      \_\_\_\_\_ Clean power for public owned facilities  
\_\_\_\_\_ Leak detection equipment      X Retrofits/upgrades to pumps & treatment processes (BC)  
\_\_\_\_\_ Replace/rehabilitation of distribution (BC)      \_\_\_\_\_ Other: \_\_\_\_\_ (BC)

**WATER EFFICIENCY** – the use of improved technologies and practices to deliver equal or better services with less water.

\_\_\_\_\_ Water meters      \_\_\_\_\_ Fixture Retrofit      \_\_\_\_\_ Landscape/Irrigation  
\_\_\_\_\_ Graywater or other water recycling      \_\_\_\_\_ Replace/rehabilitation of distribution (BC)  
\_\_\_\_\_ Leak detection equipment      \_\_\_\_\_ OTHER: \_\_\_\_\_ (BC)

**GREEN INFRASTRUCTURE** – Practices that manage and treat stormwater and that maintain and restore natural hydrology by infiltrating, evapotranspiring and capturing and using stormwater.

\_\_\_\_\_ Green Streets      \_\_\_\_\_ Water harvesting and reuse  
\_\_\_\_\_ Porous pavement, bioretention, trees, green roofs, water gardens, constructed wetlands  
\_\_\_\_\_ Hydromodification for riparian buffers, floodplains, and wetlands  
\_\_\_\_\_ Downspout disconnection to remove stormwater from combined sewers and storm sewers  
\_\_\_\_\_ OTHER: \_\_\_\_\_ (BC)

**ENVIRONMENTALLY INNOVATIVE PROJECTS** – Demonstrate new/innovative approaches to managing water resources in a more sustainable way. This may include projects that achieve pollution prevention or pollutant removal with reduced costs and projects that foster adaptation of water protection programs and practices to climate change.

\_\_\_\_\_ Wetland restoration      \_\_\_\_\_ Decentralized wastewater treatment solutions  
\_\_\_\_\_ Water reuse      \_\_\_\_\_ Green stormwater infrastructure      \_\_\_\_\_ Water balance approaches  
\_\_\_\_\_ Adaptation to climate change      \_\_\_\_\_ Integrated water resource management  
\_\_\_\_\_ OTHER: \_\_\_\_\_ (BC)

**PROJECT & GREEN COMPONENT COSTS**

	<b><u>TOTAL PROJECT COSTS</u></b>	<b><u>TOTAL "GREEN" COMPONENT COSTS</u></b>
Administration	\$ 12,500	\$ 12,500
Legal	\$	\$
Preliminary Studies/Reports	\$	\$
Engineering Design	\$ 35,000	\$ 35,000
Inspection/Surveying/Construction Management	\$ 20,000	\$ 20,000
Construction	\$ 360,000	\$ 360,000
Equipment	\$	\$
Contingencies	\$ 75,000	\$ 75,000
Other	\$	\$
Total Costs	\$ 502,500	\$ 502,500

**PART 2 – PROJECT “BUSINESS CASE” TECHNICAL/FINANCIAL ASSESSMENT**

**TECHNICAL ANALYSIS OF BENEFITS\***

In addition to this form, a supporting technical and financial analysis is required to verify energy and water saving efficiencies for any green component of the project. For green infrastructure and innovative environmental type projects, the analysis should include any applicable efficiency and environmental benefits. For assisting MGL in evaluating “Business Case” assessments of water main, meter, and pump facility replacement type projects, the attached form titled “ADWF - Water/Energy Efficiency Determination - Water Main Replacement/Meter/Pump Facility” is required to be completed. Once the form is complete along with any supporting documentation, please submit documentation to the MGL program for review and concurrence. Note, only water/energy efficiencies that achieve a 20% or greater increase in efficiency will categorically qualify as a Green project.

**CERTIFICATION STATEMENT:**

I certify the above information is current and accurate.
