

Sanitation Facility Funding Sources, Intended Uses, and Limitations

<i>Source</i>	<i>Use</i>	<i>Limitations</i>
IHS Regular (SDS)	Community and individual sanitation facilities, including interior plumbing for Native-owned homes.	DHUD-funded or non-Native-owned homes can only be served with community facilities in Native communities.
EPA, Safe Drinking Water Act – Tribal Set Aside (SDS)	Community water facilities and water service lines for Alaska Native communities.	No individually owned facilities (interior plumbing or individual wells). No sewer or solid waste facilities. No capitol equipment.
EPA, Clean Water Act – Indian Set Aside	Community sewer facilities for Native Alaska communities. Will pay 50% of washeteria cost. Will pay for individually owned septic tanks and drainfields.	No individually-owned facilities (interior plumbing). No water or solid waste facilities.
IHS Housing	Individual water and sewer facilities for "like-new," Native-owned homes.	Cannot be used for interior plumbing.
State of Alaska, VSW (CIP)	Community and individual sanitation facilities, including interior plumbing. Will pay for planning projects.	Sanitation facilities improvements to DHUD-constructed homes requires advance coordination by with VSW and DHUD/TDHE.
USDA, RD (CIP)	Community and individual water, sewer, and solid waste facilities. Home service lines and interior plumbing, conceptual planning, design studies.	Dire sanitation condition requirement. Very limited community facilities may be provided service.
EPA, Infrastructure Grant (CIP)	Community and individual water and sewer facilities including interior plumbing. Will pay for planning projects.	DHUD/TDHE-constructed homes require infrastructure housing agreement.
ADOT/PF	Roads and boardwalks associated with sanitation facilities.	
DHUD/TDHEs	Individual water and sewer facilities for DHUD-funded homes (primarily used for service lines).
