NORTHERN LIGHTS WESLEYAN TO BRAGAW ADWF LOAN NO. 131161 Anchorage Water and Wastewater Utility

The Anchorage Water and Wastewater Utility – Northern Lights Wesleyan to Bragaw loan is partially funded with Environmental Protection Agency funds through the Alaska Drinking Water Revolving Loan Fund. Administration of the project is through the ADEC Municipal Grants & Loans program under the authority of the Alaska Drinking Water Fund.

The funding for this project will be used to rehabilitate or replace the existing water distribution main within Northern Lights between Bragaw Street and Boniface Parkway that has had a significant history of breaks and emergency repairs.

This construction project will achieve a number of benefits, including the following improvements:

- Provide reliable, good quality piped public water to customers served by the water main
- Correct potential long term, chronic health problems associated with pipe breaks
- Repair or replace serious water distribution system problems or leaks

If you would like more information about this topic, please contact Beth Verrelli at 269-7603 or beth.verrelli@alaska.gov.
