</tbody>
</table>

**ppt** parts per trillion, equivalent to nanograms per liter

**LHA** U.S. Environmental Protection Agency Lifetime Health Advisory

† LHA level is 70 ppt for PFOS and PFOA combined.

- Action level not established.

**DUP** Field-duplicate sample

< Analyte not detected; listed as less than the reporting limit (RL) unless otherwise flagged due to quality-control (QC) failures.

J Estimated concentration, detected greater than the method detection limit (MDL) and less than the RL. Flag applied by the laboratory.

J* Result considered estimated due to a QC failure. Flag applied by Shannon & Wilson, Inc.

N/A Not applicable. The LHA Combined concentration could not be calculated because PFOS and/or PFOA were not detected in the project sample.
