Streamlined Contingency Plans Webinar for Contractors

The Regulations and Guidance Group of the Prevention, Preparedness, and Response Program will be hosting a webinar on **October 22, 2020 from 10:30 – 11:30 a.m.** Alaska Standard Time. The goal is to familiarize interested stakeholders with recent amendments to the Oil Discharge Prevention and Contingency Plan regulations under 18 AAC 75. The amendments include the allowance of noncrude oil vessels and barges with a total storage capacity of less than 500 barrels to apply for a streamlined plan.

This one hour webinar will:

- Explore changes to the streamline plan regulations
- Highlight recent regulatory changes for contractors
- Identify resources to assist you with your new or amended application

Login and Dial-in information

To ensure the best quality presentation we will be using WebEx for the webinar. A teleconference line for audio will be available for those that do not have access to WebEx. **To join the WebEx Meeting* via computer, click on the following link by:**

10:25 a.m. on October 22, 2020
