

Pellet Stoves Meeting Emission Standards for the Fairbanks North Star Borough PM2.5 Nonattainment Area

These standards only apply to **NEW** heating devices being **sold or installed** in the FNSB PM2.5 Nonattainment Area. Only **NEW** pellet stoves that appear on this list and meet the emission standards may be sold or installed inside the nonattainment area. For pellet stoves currently installed at a location, please refer to the following link to see if they need to be removed or if they may stay during a real estate transaction: <http://dec.alaska.gov/air/anpms/communities/fbks-pm2-5-real-estate/#lists>.

If a wood-fired pellet heating device <350,000 Btu/hr meets the emission standards in 18 AAC 50.077 but does not appear on this list, contact DEC staff for guidance. In addition, if it appears a device has been listed incorrectly, contact Steven Hoke by phone (907) 451-5172 or by email steven.hoke@alaska.gov.

DEC develops these lists by reviewing devices that have received EPA certification and where DEC has received a request by their manufacturer to review the underlying certification test report. DEC applies the standards found in 18 AAC 50.077.

DEC Standards (INSIDE FNSB PM2.5 NONATTAINMENT AREA ONLY) – 18 AAC 50.077		
Wood-Fired Heating Device Type	Particulate Matter Emission Standard	Effective Date
Woodstoves & Pellet Stoves <350,000 Btu/hr	EPA Certification AND 2.0 g/hr particulate matter annual average emission level AND <u>Not exceed 6.0 grams per hour on any valid 1-hr filter pull from the device’s certification test</u> AND <u>DEC acceptance of underlying certification test results</u>	1/8/2020 9/1/2020

More [information and a map of the FNSB PM2.5 Nonattainment Area](#) is available online

Summary of Changes:

Change Type	Manufacturer	Models	Reason for Change
Removed	Several	All devices where DEC cannot confirm the certification test results and/or where the manufacturer has not contacted DEC	Manufacturers have not addressed certification report deficiencies or did not provide DEC with a statement committing to correcting deficiencies found.

As of February 1, 2021, all devices have been removed if DEC has not accepted or has insufficient data to make a determination based on review of the underlying certification test results as required under 18 AAC 50.077(c)(2). This is in addition to the removal of devices that do not meet the DEC standards summarized in the table above.

Approved Device List			
Manufacturer Name	Model Name	Annual Avg Emission Rate (grams/hr)	Heat Output (BTU/hr)
509 Fabrications, Inc.	509-1 Optimum	1.5	32183-19573
Enerco Group, Inc.	PS60W	0.99	26865-9265
England's Stove Works, Inc.	25-CBPAH, 55-SHPCBPAH, and 55-TRPCBPAH	0.76	21807-11093
Gruppo Piazzetta S.P.A.	LIA, LISA	0.7	31927-8996
