

NOTICE OF PUBLIC COMMENT PERIOD ON A PLAN FOR FUTURE CHANGES TO
ALASKA DEPARTMENT OF ENVIRONMENTAL CONSERVATION REGULATIONS

BRIEF DESCRIPTION

The Alaska Department of Environmental Conservation (DEC) will be accepting public comment on potential issues and updates to Title 18, Chapter 70 of the Alaska Administrative Code. The federal Clean Water Act requires states to conduct a review of state water quality standards on a triennial basis. This ensures pollution limits for Alaska's waters are integrating recent science, technology, policy, and federal requirements in state water quality regulations. **THE TRIENNIAL REVIEW IS A PLANNING PROCESS, NOT A RULE MAKING PROCEEDING AND WILL NOT DIRECTLY RESULT IN NEW REGULATIONS.**

As required by the federal Clean Water Act, every three years the Department of Environmental Conservation (DEC) conducts a comprehensive review of the Water Quality Standards (WQS) at 18 AAC 70 (the "triennial review"). The triennial review process provides an opportunity to discuss the priorities and commitments DEC makes with the U.S. Environmental Protection Agency (EPA) and others regarding potential updates to surface water quality standards. State WQS are subject to EPA approval prior to implementation in state water pollution control programs.

You may comment on the potential topics being considered for the 2021-2024 triennial review cycle by submitting written comments to Brock Tabor, DEC Division of Water, at 410 Willoughby Ave, Suite 303. P.O. Box 118000, Juneau, Alaska 99811. Additionally, the Division of Water will accept comments by facsimile at (907) 465-5274 and by electronic mail at brock.tabor@alaska.gov. DEC may, but is not required to, answer written questions received after the 10-day cut-off date and before the end of the comment period.
