

Public Access to Annual EPA Vessel Reports

All vessels that operate in US waters are required to register with the US EPA and file an annual report which is public information.

To access annual reports filed by vessel operators:

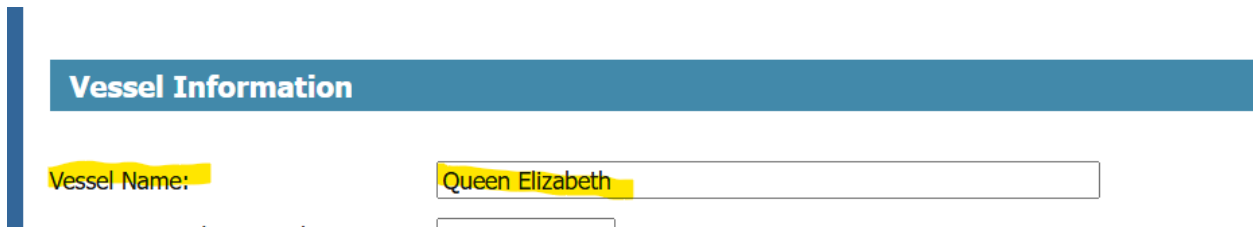

Visit the [USEPA Vessel General Permit](#) website

Select “NOIs”

The screenshot shows the EPA website's navigation bar with the EPA logo and the text "United States Environmental Protection Agency". There are language options for Spanish, Chinese (Simplified), and Chinese (Traditional). Below the navigation bar are tabs for "Learn the Issues", "Science & Technology", "Laws & Regulations", and "About EPA", along with a search box. The main content area is titled "2013 VGP eNOI System" and "Vessels Search". It includes a breadcrumb trail: "You are here: EPA Home » 2013 VGP eNOI » Vessels Search". The page explains that it provides the ability to search for information for any vessel that submitted a Notice of Intent (NOI Termination (NOT), or annual report under EPA's 2013 Vessel General Permit (VGP). It also states that search results will be presented in a table, and users can download more detailed information into an excel spreadsheet or an HTML file. At the bottom, there is a section for "Search for vessels (to narrow your search, select more than one search criteria):" with radio buttons for "NOIs" (selected) and "PARIs".

Scroll farther down the page and enter the name of a vessel

The screenshot shows a section titled "Vessel Information" with a search form. The form has a label "Vessel Name:" and a text input field containing "Queen Elizabeth".

Scroll to the bottom of the page and select Search (or just use the enter key)
