

Environmental Review Checklist

Community/Applicant: _____

Project Name: _____ **SRF Project #:** _____

Planning/Design Start Date: _____ **Construction Start Date:** _____

The following checklist outlines the information needed to initiate the environmental review process and serves as a request for categorical exclusion. ADEC will review the submitted information and notify the applicant of the type of environmental documentation required, if any. Please email the completed form and attachments to adele.fetter@alaska.gov or mail to: SRF Program, ADEC, 555 Cordova St, Anchorage, AK 99501.

PROJECT DESCRIPTION: Provide a description of the project scope including what is proposed to be constructed, replaced, or upgraded, specific construction methods to be used, estimated dimensions (length, width, and depth) of excavated and disturbed areas, and the proposed construction schedule if construction will be phased. Also identify any ground disturbing activities during planning and design including geotechnical investigations, soil borings, and excavations.

Indicate if any of the following are associated with the proposed project. Check all that apply.

- | | |
|--|---|
| Borrow pits | Temporary or permanent easement |
| Staging area for equipment/materials | New access for roads or utility lines |
| Geotechnical investigations, soil borings, excavations | Pavement Replacement (street, driveway, sidewalk) |
| Demolition of existing structures (partial or entire) | None of the above |

PROJECT MAP/AREA OF DISTURBANCE: Provide a recent aerial photograph or map with the marked boundaries of the project's area. The map should include labeled location(s) of all proposed construction. Include any ancillary impacts listed above as applicable. If a specific area has yet to be defined, please mark a larger area that will include the final project area.

A copy of the project map is attached to this environmental review checklist.

Approximate size of the total project area (acres) _____

Approximate area to be impacted by ground disturbance (excavation, geotechnical, grading, tree removal, etc.) (acres) _____

HISTORIC PROPERTIES

Has the State Historic Preservation Officer (SHPO) been consulted regarding the proposed project?

Yes – send a copy of the consultation/concurrence to the SRF Program

No – provide reason below

WETLANDS

Are wetlands present in the project area? Yes No

What information was used to determine the presence or absence of wetlands in the project area?
Examples may include online mapping tools, wetland inventory reports for the project, or other assessments.

Will the construction activities impact a wetland or water body? Yes No

If yes, describe the construction activities that will impact the wetland or water body and describe any coordination completed with the US Army Corps of Engineers or Alaska Department of Fish and Game regarding permitting requirements, if applicable.

FLOODPLAINS

Will construction occur within a 100-year floodplain? Yes No

Is a FEMA Flood Insurance Rate Map (FIRM) available for this location? Yes No

If a floodplain map is not available, what information was used to determine the presence or absence of floodplains?

State Revolving Fund Program – Environmental Review Checklist

If construction occurs within a 100-year floodplain, describe the construction activities in the floodplain.

If construction occurs within the floodplain, will pre-construction contours be restored after the construction is complete? Yes No

Describe any coordination with the local floodplain management agency, and provide a copy of permits or permit applications, if applicable.

CONTAMINATED SITES – [ADEC Contaminated Sites Database Search](#)

Are there any contaminated sites near the project area? Yes No

If yes, list the distance and direction from the project area. Also describe any coordination completed with the ADEC Contaminated Sites Program.
