The following facility is authorized to discharge in accordance with the terms of the State of Alaska General Permit 2013DB0004 and any specific requirements listed in this authorization.

The authorization effective date is April 30, 2015.

The authorization to discharge shall expire at midnight, on the expiration or termination date of General Permit 2013DB0004 (August 28, 2019) unless notified by the Department.

The permittee must reapply for an authorization when the Department issues a General Permit that replaces 2013DB0004 if the permittee intends to continue operations and discharges from the facility.

**Title**
**NOTICE OF INTENT FORM**

**Notice of Intent to be covered under the Wastewater General Permit 2013DB0004 for Large Commercial Passenger Vessels Operating in Alaska (See Sections 2 and 3 of the permit.)**

Submission of this document constitutes a request that certain discharges into marine waters of the state resulting from the operation of the large commercial passenger vessels identified herein be authorized under General Permit 2013-DB0004.

### Vessel Owner Information

Who is the main point of contact for the vessel? (e.g. owner, operator, or Alaska Agent):

**Operator**

Vessel Owner’s Business Name: *Princess Cruise Line, Ltd.*

| Mailing Address: 24305 Town Center Drive  
| Santa Clarita, CA 91355 | Phone: 206-286-3203 |

Representative: *Michael Inman*  
Email: [minman@hollandamerica.com](mailto:minman@hollandamerica.com)

### Vessel Owner’s or Operator’s Alaska Agent Information

**Company Name:** *Cruise Line Agencies of Alaska*

| Mailing Address: 1330 Eastaugh Way #4  
| Juneau, AK 99801 | Phone: 907-586-1282 |

Representative: *Andrew Green*  
Email: Juneau@claalaska.com

### Vessel Operator’s Business Name if Different From the Owner’s Business Name

**Vessel Operator’s Business Name:** *Same as Above for “Vessel Owner Information”*

Mailing Address: 
Phone:

Representative: 
Email:
**Vessel Information (Y/N)**

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>

**Vessel Tracking**

Method of submitting hourly vessel tracking information while in Alaskan waters (Marine Exchange of Alaska AIS or other Department approved method):

| Name, physical address, and mailing addresses of the service: | Marine Exchange of Alaska  
1000 Harbor Way  
Suite 204  
Juneau, AK 99801 |
|---------------------------------------------------------------|---------------------------------------------------------------|
| Contact’s name, email address, and phone number:               | Marine Exchange of Alaska  
907-463-2607  
OPS1@MXAK.ORG                                               |

¹ Vessel draft under a) loaded condition for Alaska operations (bunkers / waste water storage etc.) and b) under light ship conditions for Alaska operations (bunkers empty / no waste water storage etc.)
² Length of Waterline (LWL) under normal load in standard Alaska conditions.
### Discharge Port Characteristics

**Note:** If there is more than one discharge port attach a sheet with the characteristics below for each AWTS Port. If more than one discharge pump attach sheet with capacity for each.

³ Name or identification as used in VSSP and Waste Water Discharge Logbook.
⁴ Vertical distance from the vertical centerline of the discharge port relative to the standard (loaded) conditions waterline.
⁵ Treated wastewater discharge pump for the named discharge port. For vessels with variable speed / capacity pumps identify the effective discharge capacities. For vessels with more than one pump simultaneously operated identify the total effective pump capacities.
⁶ Parallel with the Vertical Longitudinal Center Plane orientation of the hull orientation angle defined as the angle in degrees between the horizontally perpendicular projected line originating from the vertical longitudinal center plane of the hull self to the center of the discharge port, and the projected perpendicular line originating from the port center self (face) vertically directed to the center plane of the hull (Y-Y axis).
⁷ Parallel with the Vertical Longitudinal Center Plane orientation of the hull orientation angle defined as the angle in degrees between the horizontally perpendicular projected line originating from the vertical longitudinal center plane of the hull self to the center of the discharge port, and the projected perpendicular line originating from the port center self (face) horizontally directed to the vertical center plane of the hull (X-X axis).
