

**ALASKA DEPARTMENT OF ENVIRONMENTAL CONSERVATION
UNDERGROUND STORAGE TANK OPERATOR DESIGNATION FORM**

Title 18 Alaska Administrative Code (AAC) 78, *Underground Storage Tanks*, includes an operator training program, which went into effect in July 2012. Underground Storage Tank (UST) operator training is mandatory for Alaska UST system owners and operators, who must be trained and certified within 30 days of assignment to the position. New Class A and/or Class B Operators must be designated to the state, in writing (*18 AAC 78.360(b)*) within 30 days of assignment (*18 AAC 78.370(b)*). Class C Operators may be trained by the Class A/B Operator (use the Class C Operator Checklist).

CLASS A – Class A operators include owners or employees who have primary responsibility to operate and maintain UST systems. The focus is on the broader aspects of the underground storage tank requirements.

CLASS B – Class B operators have “daily on-site responsibilities” and must have an in-depth understanding of the operation, maintenance, leak detection monitoring and recordkeeping of UST systems.

Provide the following information for your primary Class A and Class B operators:

- **Class A and Class B Designation Form**
- **Photocopy of the Class A and Class B certificate(s)**
- **Send by email to: Susan Young at susan.young@alaska.gov**
- **or, by fax 907-269-7687**
- **or, by mail to: ADEC SPAR UST Office, 555 Cordova Street, Anchorage, AK 99501-2617**
