2. Reasons why the fee or computation is disputed and how it should be adjusted

Describe clearly and concisely why the fee does not comply with regulations (or should be adjusted for other reasons),

Include what the fee should be and how you calculated the adjusted fee. You should refer to any documents or data that support your case or that you think would help the director in their review.

Examples

1. The fee was computed for a food service event lasting 8-28 days at \$120 with an additional \$120 added for an application that was submitted fewer than 15 days before the event was to begin. Our application was submitted 16 days before the event was to begin based on the date stamped on the application. The fee should be \$120 rather than \$240.

2. The plan review was for a water system for 105 individuals. The fee for a system for 105 people is \$830 rather than \$1570.

1,120 Characters Maximum (about 210 words)

If you need more space, please summarize and reference an attached document by filename.
