1. Do you have excavation dewatering activities located within 1,500 feet of a permit defined “DEC-identified contaminated site”?

2. Do you have excavation dewatering activities located within 1,500 feet of a “contaminated groundwater plume” identified by Contaminated Sites?

3. Do you have construction related activities with a land disturbance of one acre or greater with a storm water discharge to waters of the U.S.?

4. Do you have excavation dewatering discharges to waters of the U.S.?

- No NOI submittal is required and dewatering discharge to the land is authorized in accordance to Part 4.0, Control Measures; Part 5.0, Monitoring Requirements; and Part 6.0 Reporting and Recordkeeping of the Excavation Dewatering General Permit.

- Submitter an NOI and a certified BMP Plan with required information in Part 2 of the permit to receive discharge authorization under the Excavation Dewatering Permit.

Construction storm water coverage is required under the Construction General Permit (CGP) which will also authorize the discharge of uncontaminated non-turbid groundwater including all dewatering activities.

Discharge to:
- LAND
- waters of the U.S.

1. A contaminated site or groundwater plume with an “Active” or “Cleanup Complete-Institutional Controls” status identified by DEC Contaminated Sites Program. For assistance in locating mapped contaminated sites or listing of groundwater plumes see http://dec.alaska.gov/Water/wnpssc/stormwater/edhsgp.html.
