

How to Access Cruise Ship Inspection Reports and Documents in EDMS

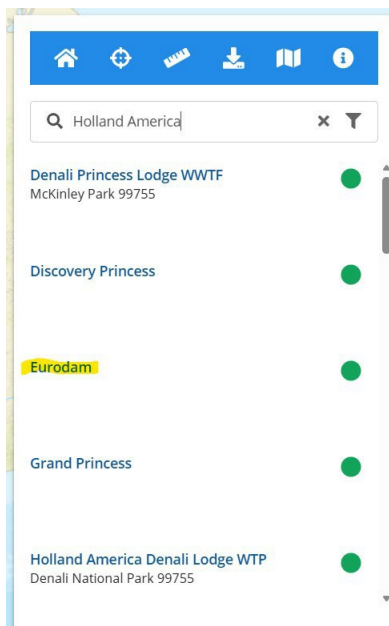

Use the link to “[DEC Environmental Data Management System \(EDMS\)](#)”

Select the Site Map Explorer

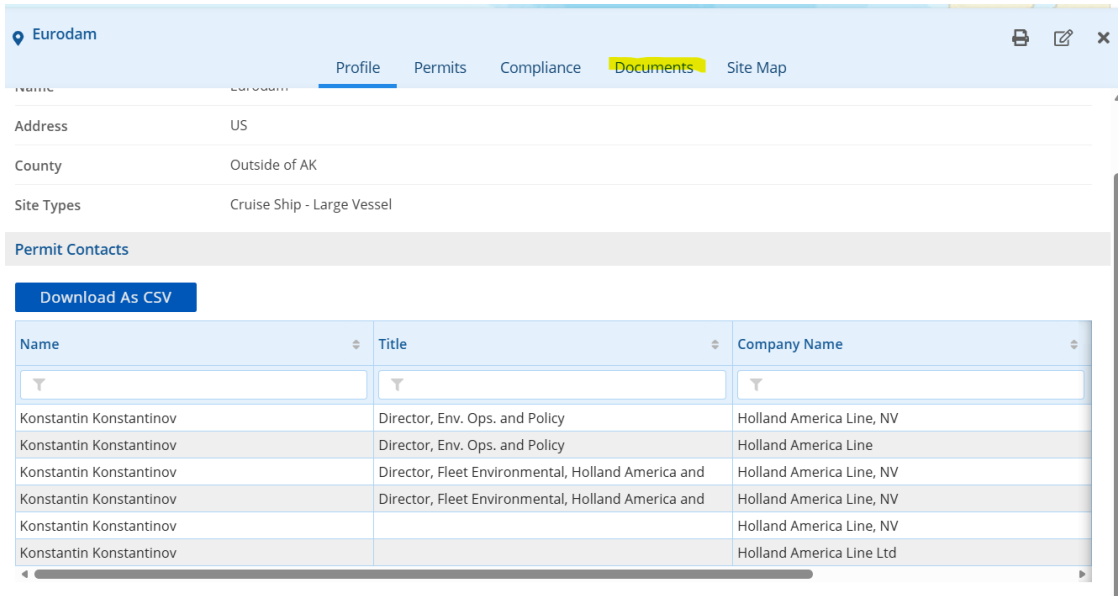

Enter the name of a cruise ship company and select a vessel name or facility from the list.

You can enter the name of the vessel or facility in the search bar if you know which vessel or facility you want information for.

Select Documents from the tab at the top.

A full list of all publicly available documents can be found here.

To find an inspection report, type “inspection” in the search bar under the “Category” heading.

Name	Description	Category	Created	Download	Source Number	Source Type	Source Status	Source Program Area
		Inspecti						

Select “Link” to download and view the report as a PDF.

7/12/23 Eurodam Insp Report.pdf		Inspection report	07/22/2023	Link	E-TXN7-749-ENYM	Large Vessel Underway (07/19/2023)	Complete	Cruise S
6/13/24 Eurodam UW Inspection Report (002).pdf	Inspection report	Cruise Ship Inspection Documents	07/10/2024	Link	E-GQPZ-XW4Q-ENYM	Large Vessel Underway (06/12/2024)	Complete	Cruise S
5/3/23 Eurodam IP	Eurodam IP	Cruise Ship	08/28/2023	Link	E-GR7T-GRMV-	Large Vessel	Complete	Cruise S

Vessels are required to make several compulsory submissions of documents each month which are made available to the public. Use the same process to find other publicly available EDMS documents. Some of the documents you can find for cruise ships are: unrecoverable items, compliance actions, violations, inspection reports, wastewater discharge logs, hourly position reports, sample results reports. Use the search features in EDMS to expedite finding an available document.
