

Mako Haggerty

Thank you for this opportunity to comment.

It is always a good exercise to update and clarify and reduce redundancies in regulations.

However, please continue to name the Regional Citizen Advisory Councils for Cook Inlet and Prince William Sound as recipients for plan updates, amendments and plan reviews as required by Federal law.

Please continue to emphasize use of best available technologies(BAT) and require that a BAT conference be held every 5 years, as is mandated in AS 46.04.030(e).

Please do not change the number of annual exercises required of the plan holders. Regulations need to require that if a plan holder fails to demonstrate the ability to implement their plan ADEC will require additional exercises or take other appropriate action.

Again, thank you for this opportunity.
