

DEC BROWNFIELDS: SITE NOMINATION FORM

In 2025, the Alaska Department of Environmental Conservation (DEC) was awarded an EPA Community-Wide Assessment Grant for States and Tribes (CWAGST).

Through this grant, DEC can provide assessment services to communities across the state, including **ASTM Phase I and II environmental site assessments (ESAs), hazardous building materials (HBM) surveys, and cleanup planning.**

If a brownfield property in your community could benefit from a site assessment or cleanup planning, please complete this **site nomination form** and submit to DEC. DEC will work with you to determine whether the project is eligible and within the grant's scope and our capacity to assist.

Note that cleanup activities are unfortunately not eligible under this grant; however, DEC may be able to provide such services using other resources. Contact the DEC Brownfields Team at the email below if you are interested in learning more about DEC's cleanup services.

Submission Requirements:

Submit this form to: DEC Brownfields Team
dec.brownfields@alaska.gov
Subject Line: CWAGST Site Nomination Form: [Community Name]

If you have any questions or are unable to submit a site nomination form electronically, please contact dec.brownfields@alaska.gov.

Phone:

Site Information:

Site Name:

Site Address:

Owner Name:

Previous Owner Name:

When was the property acquired? Unknown ☐

How was the property acquired?

☐ Purchased ☐ Donation ☐ Quitclaim Deed ☐ Foreclosure ☐ Other

What is the current use / current state of the property?

How was the property previously used?

What are the known or suspected contaminants(s) at the site? (mark all that apply)

☐ Hazardous Substances ☐ Petroleum ☐ Hazardous Building Materials

Is the property currently listed on the [DEC Contaminated Sites Database](#)? ☐ Yes ☐ No

If Yes, what is the site file number?

Have there been any previous site assessments conducted at the site? ☐ Yes ☐ No

If Yes, please attach reports with Site Nomination Form.

If a building is present on the property, about what year was it constructed?

☐ N/A

To the best of your knowledge, was the property conveyed pursuant to the Alaska Native Claims Settlement Act (ANCSA)? ☐ Yes ☐ No ☐ Unknown

What types of services are you requesting? (mark all that apply)

- ☐ ASTM Phase I Environmental Site Assessment (includes research and site visit to identify areas of potential contamination)
- ☐ ASTM Phase II Environmental Site Assessment (includes sampling to identify potential contamination)
- ☐ Hazardous Building Materials Survey
- ☐ Cleanup Planning (includes identifying cleanup options and developing cost estimates)

Please list any local resources that could assist in a project if awarded (for example, local labor, available heavy equipment).

How will the property be reused by the community once assessed and cleaned up?
