<sup>5</sup> “The term “municipality” means a city, town, borough, county, parish, district, association, or other public body created by or pursuant to State law and having jurisdiction over disposal of sewage, industrial wastes, or other wastes, or an Indian tribe or an authorized Indian tribal organization...” U.S. Code (2015) Title 33 Chapter 26 Section 1362

<sup>6</sup> The Intended Use Plan for the Alaska Clean Water Fund includes a description of the current criteria used to identify underserved (disadvantaged) communities. The Clean Water Act requires the inclusion of income, unemployment and population trend in these criteria. A community is considered disadvantaged if it meets one or more of the following criteria: • Median Household Income (MHI) is less than the state average MHI that is currently published by the Alaska Department of Labor and Workforce Development, Research and Analysis. • Rate of unemployment is above the state average unemployment rate that is currently published by the Alaska Department of Labor and Workforce Development, Research and Analysis. • The five-year population trend for the community is outside the range defined by the state five year population trend, plus or minus 5%. Data is provided from the Alaska Department of Labor and Workforce Development, Research and Analysis Section. • The activity to be carried out in an economically distressed area as described in section 301 of the Public Works and Economic Development Act of 1965 (42 U.S. Code 3161).
