

Alaska Department of Environmental Conservation (DEC)
Division of Air Quality
Confirmation of Proper Installation Statement
Per 18 AAC 50.077(i)

State regulation **18 AAC 50.077 - Wood-fired Heating Device Standards** requires that confirmation be provided to the department upon the installation of wood stoves, pellet stoves, and masonry heaters within the Fairbanks nonattainment area. Confirmation of proper installation must be completed by a professionally certified installer.

A description of wood-fired heating device standards, requirements, lists of devices that do meet State standards, and maps of the nonattainment area are available online at:
<http://burnwise.alaska.gov/standards.htm>

Device(s) Inspected/Installed:

- Solid Fuel Burning Device
 - Masonry Heater
 - Wood Stove
 - Pellet Stove
 - Electrostatic Precipitator (ESP)
 - Other retrofit control device (Device Type : _____)

Address of Device: _____

Make: _____ **Model:** _____

Serial Number: _____ **Installation Date:** _____

As the installer of the above listed device, I certify that this device has been installed per the manufacturer's specifications to ensure optimal operation.
