Subject: Permit to Apply Pesticides, # **24-AQU-05**

Dear Mr. Bradley,

The Department of Environmental Conservation (DEC) has completed its evaluation of your request for a permit for the application of the pesticide **Prentox Rotenone Fish Toxicant Powder** with **EPA registration number 89459-32** and active ingredient rotenone to waters of the state to control invasive Northern Pike in Knik Lake near Wasilla. DEC is issuing the enclosed permit in accordance with Alaska Statute 46.03.330 and Title 18, Chapter 90.525 of the Alaska Administrative Code (18 AAC 90.525) for a period not to exceed five years.

A person authorized under a provision of 18 AAC 15 may request an informal review of a contested decision by the Division Director in accordance with 18 AAC 15.185 and/or an adjudicatory hearing in accordance with 18 AAC 15.195 – 18 AAC 15.340. See DEC's "Appeal a DEC Decision" web page <https://dec.alaska.gov/commish/review-guidance/> for access to the required forms and guidance on the appeal process. Please provide a courtesy copy of the adjudicatory hearing request in an electronic format to the parties required to be served under 18 AAC 15.200. Requests must be submitted no later than the deadline specified in 18 AAC 15. In both cases, please also send a copy of the request to ADEC Pesticide Program, 1700 E. Bogard Road, Building B Suite 103, Wasilla, AK 99654.

Sincerely,

A handwritten signature in blue ink, appearing to read "R. Blankenburg".

Robert J. Blankenburg, P.E.
Solid Waste, Hazardous Waste & Pesticides Program Manager

PERMIT TO APPLY PESTICIDES

Permit No.: 24-AQU-05
Date Issued: September 16, 2024
Date Effective: October 26, 2024
Date Expires: December 31, 2028

The Alaska Department of Environmental Conservation (ADEC), under authority of Alaska Statute 46.03.330 and Title 18, Chapter 90.525 of the Alaska Administrative Code (18 AAC 90.525), hereby grants a Permit to Apply Pesticides to:

Alaska Department of Fish and Game
1801 S Margaret Dr #2
Palmer, AK, 99645

for the purpose of applying the pesticide Prentox Rotenone Fish Toxicant Powder with EPA registration number 89459-32 and active ingredient rotenone to waters of the state to control invasive Northern Pike in Knik Lake near Wasilla.

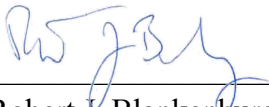

The permit holder shall manage and apply the pesticide in accordance with 18 AAC 90 and the permit application materials submitted February 6, 2024. In addition, the following permit conditions and stipulations are required:

1. Use pesticides only in the manner specified by the label instructions. Adhere to all the requirements specified by the pesticide product label.
2. Ensure that pesticides are applied **only** by a person properly certified by DEC to apply such pesticides.
3. Apply pesticides using properly calibrated equipment, and in strict compliance with safety precautions.
4. Post notification signs at access points around the pond. Signs should include a warning that pesticides have been applied, the date of application, when the area may be re-entered (there is no restricted entry interval for this product), and contact information where the public can receive more information. Signs must be posted prior to applications and remain in place at least 24 hours.
5. In addition to the records required under 18 AAC 90.420, maintain a record of an assessment of the success or failure of the treatment, photographic records of notification signs required under Stipulation #4, and any observed effect on human health, safety or welfare, animals, or the environment.

6. No later than **December 31** of each year throughout the duration of the permit, submit a written Summary of Treatment Results including all information listed in Stipulation 5, above. These records must be made available to DEC at other times upon request.

In addition to the above stipulations, the ADEC Pesticide Program may monitor treatments to ensure compliance with 18 AAC 90 and the Permit Conditions and Stipulations.

This permit expires on **December 31, 2028**, or upon completion of the above described project, whichever comes first, and may be revoked in accordance with 18 AAC 90.540.

Robert J. Blankenburg, P.E.

Solid Waste, Hazardous Waste & Pesticides Program Manager
