

ALASKA DEPARTMENT OF ENVIRONMENTAL CONSERVATION
WASTEWATER PROGRAM FORMS:
Owner Operations and Maintenance Certification Form

Property Legal Description:

Owner/Operator Name:

Certification of Operations and Maintenance:

18 AAC 72.650. Notification and documentation requirements.

(c) Not later than 90 days after completing the installation or modification of an alternative wastewater system under 18 AAC 72.611(a), the registered engineer responsible for construction of the system shall submit to the department a completed registration package that includes

(3) a signed statement from the owner or operator of the system on a form provided by the department certifying that the owner or operator

(A) has received a copy of an operations and maintenance manual for the system that was developed in accordance with standard sanitary engineering practices and manufacturer recommendations and requirements; and

(B) will operate and maintain the system in accordance with the operations and maintenance manual.

I certify I have received a copy of an operations and maintenance manual that was developed in accordance with sanitary practices and manufacturer recommendations and requirements for the installed system at the listed property legal description above.

I understand that I will need to maintain an agreement with a qualified service provider for the wastewater treatment system or receive specialized training from the manufacturer to perform maintenance myself.
