Potential Places of Refuge and  
Geographic Response Strategies-  
Pre-Planning and Response**

Unalaska City Council Chambers

**Purpose-**

The purpose of the forum is to inform the public and gather input on the development of Potential Places of Refuge (PPOR) and Geographic Response Strategies (GRS) in the Aleutian Subarea. PPOR's and GRS' are pre-planning tools used to assist decision makers in the event of a crisis with a stricken vessel and/or the release of oil. They contain information that can be used to make better, more informed decisions. Having the correct information is critical to these plans and the more input and information gathered at this time will assist in protecting local waters.
