

ALASKA DEPARTMENT OF ENVIRONMENTAL CONSERVATION
Division of Spill Prevention and Response
Prevention and Emergency Response Program

SITUATION REPORT

INCIDENT NAME: M/V Selendang Ayu

SITREP #: 50

SPILL NUMBER: 04259934301

LEDGER CODE: 14142160

TIME/DATE OF INCIDENT: The M/V Selendang Ayu grounded around 6:00 PM, December 8, 2004 on Unalaska Island between Skan Bay and Spray Cape.

TIME/DATE OF SITUATION REPORT: 1:00 PM January 19, 2005.

TIME/DATE OF THE NEXT REPORT: 1:00 PM January 20, 2005.

TYPE/AMOUNT OF PRODUCT SPILLED: Fuel on board the vessel at the time of this incident was 424,000 gallons of intermediate fuel oil (IFO 380) and 18,000 gallons of marine diesel oil. The midsection fuel tank ruptured when the vessel broke apart and released an estimated 40,131 gallons of IFO 380. The status of the centerline IFO fuel tanks #1 and #3 (originally estimated to contain 176,473 gallons and 104,448 gallons respectively) remains unknown at this time. The actual amount of spilled fuel is also unknown.

LOCATION: The vessel's position is at 53° 38' 04" N, 167° 07' 30" W on Unalaska Island between Skan Bay and Spray Cape. This site is approximately 25 miles in a direct line or 50 sea miles from Dutch Harbor.

CAUSE OF SPILL: The Coast Guard reported at 7:14 PM, December 8, 2004 that the vessel had broken in half.

POTENTIAL RESPONSIBLE PARTY (PRP): Ayu Navigation Snd, Bhd, Port Klang, Malaysia. The operator is IMC Shipping.

RESPONSE ACTIONS: Dependent on weather, today's response activities will include over flights, shoreline assessment/cleanup, vessel lightering, water quality sampling and wildlife recovery operations. The shoreline assessment team will survey areas in Volcano, Makushin and Portage Bays. Cleanup teams will be in Skan Bay (SKN 8), Portage Bay (PTN 3) and Humpback Bay (HMP 11). The lightering team will resume pumping from the IFO # 4 port tank.

On-water Response: There was no change in the status on 1/18/05. The barge Kashoga with two Marco skimmers and the Current Buster system aboard the Western Viking vessel are on scene ready for deployment.

Shoreline Cleanup: On 1/18/05 shoreline cleanup crews worked in Skan Bay (SKN 14) Portage Bay (PTN 3) and Humpback Bay (HMP 11) and collected 1,216 bags of oily waste (20 cubic yards). To date, cleanup crews have collected 19,147 bags (319 cubic yards) of oily solid waste. The Rapid Assessment Team surveyed Makushin Bay (MKS 2-7), Peter Island and Anderson Bay (AND 1, 6). The Makushin segments are heavily oiled including a marsh and streambank at MKS 5 and a streambank at MKS 6.

Salvage and Lightering Operations: On 1/18/05 the lightering team removed 3,798 gallons of IFO from #4 port tank during two flights with the heavy lift helicopter. The IFO tank #4 port was initially estimated to hold 56,000 gallons of IFO. The total volume lightered from the vessel to date is 43,991 gallons of IFO/water and 2,647 gallons of diesel for a total of 46,638 gallons of IFO/diesel.

Vessel Status: There was no change in the status on 1/18/05. On 1/5/05 the USCG reported that a hole was observed on the starboard bow immediately below the name Selendang Ayu. The stern section remains hard aground and has a 3-degree port side list.

Wildlife: On 1/18/05, the wildlife recovery team collected 40 bird carcasses and the USFWS reported that a total of 803 dead birds have been recovered. To date, 29 live oiled birds have been captured and sent for rehabilitation and

10 have been released. To date, 5 sea otter carcasses including two skeletons (cause of deaths unknown) have been recovered.

Commercial Fishery: On 1/18/05, water quality sampling continued in the Akutan and Unalaska areas. The tow in Wide Bay and Broad Bay (within Unalaska Bay) did not have any evidence of oiling. The tow in the Akutan transit zone did not have any evidence of oiling. 32 unbaited crab pots with oil adsorbing snare were set in Unalaska Bay to check for submerged oil.

The Unalaska Bay Tanner crab fishery closed yesterday at 5:00 pm. Seafood inspections at Dutch Harbor processing plants found all product free of oil contamination.

The Unified Command provided the opilio crab fleet with recommended transit procedures to minimize risk from encountering tarballs. The fleet left from Dutch Harbor and Akutan on 1/13/05 and the fleet has not reported any incidents with tarballs thus far. The Unified Command has implemented an enhanced program to protect seafood quality. Shorelines are surveyed in Unalaska Bay and Captains Bay for tarballs and tar patties, vessels are using crab pots and tow nets to detect submerged oil, aerial surveys are checking for floating oil, and additional staff from the ADEC-Environmental Health seafood program are inspecting crab at Dutch Harbor and Akutan processors.

Staffing: Fourteen State staff and seven ADEC contractors are currently in Dutch Harbor, including eight ADEC seafood inspectors. Additional State spill response staff from ADEC, ADNDR, ADFG and the Attorney General's office outside of Dutch Harbor are actively engaged in supporting the response.

SOURCE CONTROL: On 1/3/05 lightering operations began on the stern section of the vessel and are ongoing as weather conditions permit. See Salvage and Lightering Operations paragraph.

RESOURCES AFFECTED: Resources at risk in the area include marine mammals, marine birds, shellfish and anadromous streams. The protection of cultural resources continues to be a high priority for the Unified Command.

FUTURE PLANS AND RECOMMENDATIONS: Safety of response personnel is the highest priority for the Unified Command. Continued water quality sampling, shoreline surveys, protection of sensitive areas, wildlife, shoreline cleanup, and lightering/salvage continue as weather permits. Development of the Spring/Summer Operations Plan. Public meetings are held in Unalaska on Monday, Wednesday and Friday.

WEATHER: Today: Cloudy, temperatures low to upper 30s, northeast wind 10-15 knots, and seas 2-3 feet. Tomorrow: Cloudy, temperatures low to upper 30s, variable wind to 10 knots, seas 2 feet.

UNIFIED COMMAND AND PERSONNEL

F.O.S.C. : Tom Harrison, Commander, USCG
S.O.S.C. : Gary Folley, ADEC
R.P.I.C. : Howard Hile, Gallagher Marine Systems
