INCIDENT ACTION PLAN

The items checked below are included in this Incident Action Plan:

- ICS 202-OS (Response Objectives)
- ICS 203-OS (Organization List) - or - ICS 207-OS (Organization Chart)
- ICS 204-CGs (Assignment Lists)
One Copy each of any ICS 204-CG attachments:
- ICS 205-CG (Communications Plan)
- ICS 206-CG (Medical Plan)
- ICS 208-CG (Site Safety Plan) or Note SSP Location see note on 202 also available on request
- Map/Chart
- Weather forecast / Tides/Currents

Other Attachments

- ICS 232 - Resources at Risk (Available upon request)
- Archeological Site Maps (Available upon request)
- Transfer / Lightering Plan (Available upon request)
- Waste Management Plan (Available upon request)
- SCAT Segment Map (Available upon request)
- _____
- _____

INCIDENT OBJECTIVES		
1. Incident Name	2. Operational Period (Date / Time)	INCIDENT OBJECTIVES
F/V Mar-Gun	From: APR 23 09 10:00 To: APR 30 09 10:00	ICS 202-CG
3. Objective(s) <ul style="list-style-type: none"> • Highest Priority of this Response is to Ensure the Safety of Citizens and Response Personnel • Protect environmental, historical, and cultural sensitive areas. • Remove all fuel, persistent oils, and HAZMAT from vessel per established plan. • Identify subsistence areas in the trajectory of potential release and develop a sampling plan. • SCAT will be in standby to be activated if new oil releases are observed from the vessel. • Ensure transparent communication with media, stakeholders and interested parties. • Maintain optimal administrative management of the vessel recovery operation; modify the vessel recovery plan as necessary to facilitate the safe, successful recovery of the vessel • Properly handle and dispose of waste generated from the response. • Continue to assess vessel stability and stabilize as appropriate 		
4. Operational Period Command Emphasis (Safety Message, Priorities, Key Decisions/Directions) <ul style="list-style-type: none"> • Report all injuries, incidents and close calls to the UC through your supervisor. • Fatigue issues for workers are of specific concern as the response continues. • Workers in cold weather require extra awareness, and extra caution should be taken to prevent cold weather injuries. • Report any sightings of oiled or impacted wildlife to the UC through the NOAA SSC(John Whitney) • While in the intertidal zone be especially mindful of slips, trips, falls and other water hazards. • Workers should advise their supervisor if they need essential supplies, i.e. prescriptions or special needs. • Workers are requested to complete daily ICS form 214a and provide them to their supervisor. This is to assist in documentation and to ensure work is properly compensated. • All media/press releases shall be routed through the UC for approval prior to release.

Mar-Gun Vessel Recovery Milestones

Date Finished	Milestones
4/7/2009	Fabricate Reinforcements/Bracing in the #1 Fishhold
4/8/2009	Weld foundations and install fairleads on aft deck port and starboard
4/9/2009	Strip residual oil out of 2,3,4, and 5 port wing tanks and transfer to Magone vessel
	Install air fittings to blow water out of #3 Port Wing Tank, and the Fore/Aft Port Double Bottom Tanks
	Finish Engine Room hull repairs
	Reave 5/8" wire on 4 part blocks on port side outside of trawl alley (for 3rd, smaller offshore anchor)
4/16/2009	Reave Port Multi-Part blocks with 1" wire from trawl winch
4/20/2009	Reave Starboard Multi-Part blocks with 1" wire from trawl winch
	Install 1st offshore anchor
	Install 2nd offshore anchor
	Install 3rd offshore anchor
4/19/2009	Spool balance of ship's 1" wire off of the port trawl winch and then transfer to shore with helo in ~400' sections
	Spool balance of ship's 1" wire off of the starboard trawl winch and then transfer to shore with helo in ~400' sections
	Remove nets from vessel
	Seal shaft alley covers in #1 Fish Hold
	Seal shaft alley covers in #2 Fish Hold
	Lock down shaft to prevent rotation during towing

	Remove rudder from the vessel
	Remove Residual Slops from Port 1 and 2 Double Bottoms
	Pull Mar-Gun off of the beach

Mar-Gun Tank Configuration and Status

 Tanks that have been visually inspected from outside the vessel and are not damaged

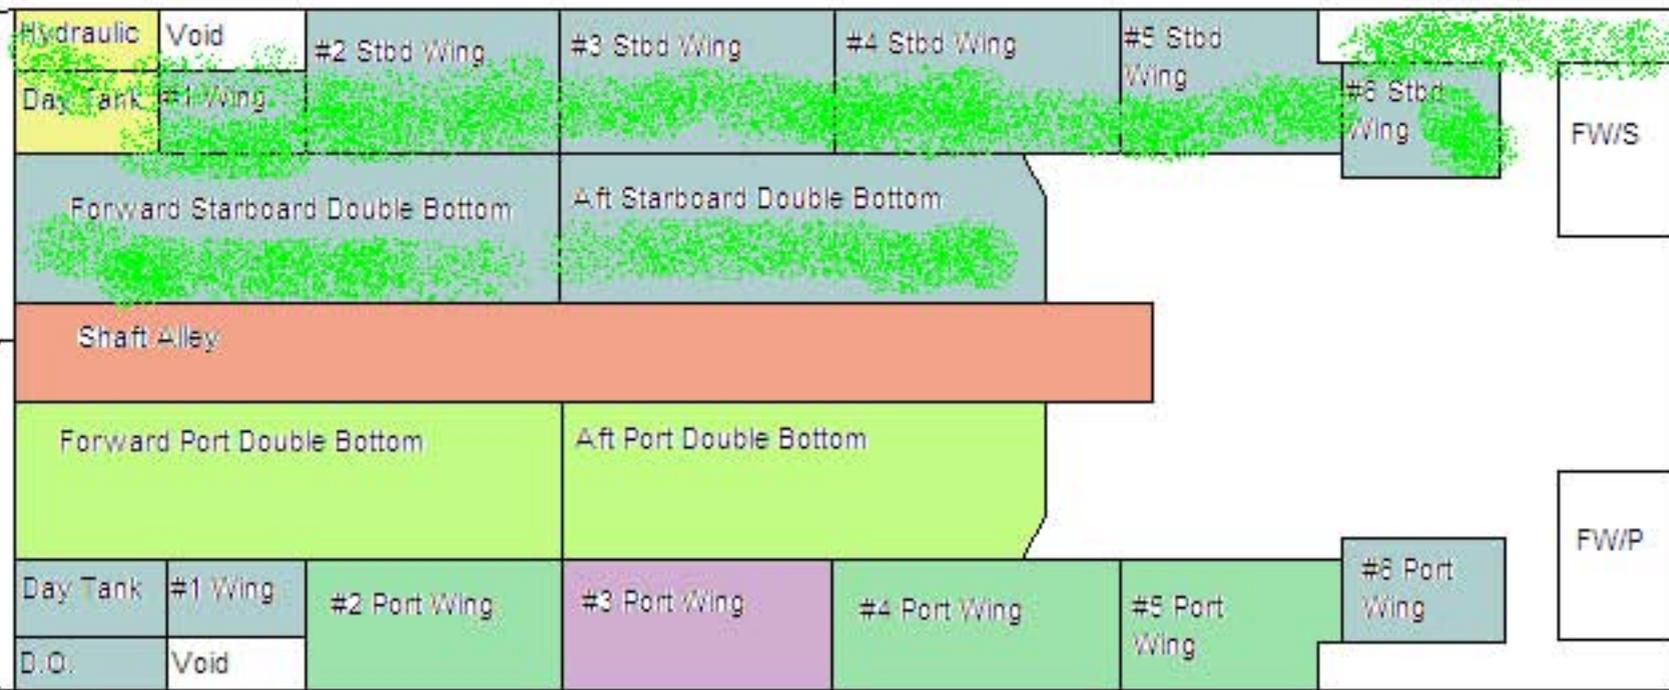

Soft Patch Under Reduction Gear

Misc. Leaks From Shaft Alley Will Be Addressed From Shaft Alley Side

24" Split Welded and Secured

L.O.

Soft Patch W/ Plan To Weld Over With Steel Box

-  Tanks that are holed
-  Tanks that have been stripped and visually inspected
-  Tanks that have been pumped and will not be visually inspected
-  Spaces that have cracks
-  Contains Fuel
-  Suspected to be holed or cracked

1. Incident Name					2. Operational Period (Date / Time)		Assignment List
