SITUATION REPORT

Peter Pan Seafoods False Pass Spill

SITREP # 2

SPILL #: 12259906401

TIME/DATE OF SITUATION REPORT: 13:30 p.m. on March 9, 2012

TIME/DATE OF THE NEXT REPORT: As the situation warrants

TIME/DATE OF SPILL: The Peter Pan Seafoods facility manager discovered the spill at 2:30 p.m. on March 4, 2012. The spill was reported to ADEC at 11:30 a.m. on March 5.

TYPE/AMOUNT OF PRODUCT SPILLED: The spilled product is unleaded gasoline. The facility manager estimates that approximately 4,373 gallons of unleaded gasoline were lost from the 30,610-gallon capacity tank, which was gauged at the end of January and contained 12,325 gallons at that time. The spill is contained within the lined containment area. It is suspected that the spill originated from the bottom of the tank.

INCIDENT LOCATION: Peter Pan Seafood's tank farm is located in the city of False Pass. False Pass is 646 air miles southwest of Anchorage (Lat/Long: 54.827778, -163.399167).

CAUSE OF SPILL: The cause of the spill is unknown and is under investigation.

POTENTIAL RESPONSIBLE PARTY: Peter Pan Seafoods, Inc.

RESPONSE ACTION: On March 8, 2012, ADEC approved the Peter Pan Seafoods site safety plan. As of March 9, approximately 7,070 gallons of unleaded gasoline were transferred from the tank into 55-gallon drums and a 1,000-gallon tank. The majority of the fuel was transferred using the community gasoline dispensing pump. The main tank was opened and a diaphragm pump used to remove the remaining 500 gallons from the tank. No complaints of vapor fumes have been received from the nearby residents. Peter Pan Seafoods has contracted Alaska Chadux to assess safety concerns and devise the best course of action for cleanup. Alaska Chadux is currently on site at Peter Pan Seafoods False Pass facility assessing the situation.

SOURCE CONTROL: Peter Pan Seafoods personnel transferred 7,070 gallons of gasoline to 55-gallon drums and a 1,000-gallon tank. All the fuel that could be removed from the tank has been removed. The source of the spill is under control.

RESOURCES AFFECTED: The spill is contained within the lined secondary containment area. There have been no reports of oiled wildlife in the area.

FUTURE PLANS AND RECOMMENDATIONS: Upon completion of the site assessment by Alaska Chadux, Peter Pan Seafoods staff will submit a cleanup plan for the secondary containment area to ADEC for review.

WEATHER: Mostly cloudy with snow showers; temperature 23°F; winds northwest at 20-35 mph, with gusts to 40 mph. Tonight: Mostly cloudy with snow showers; lows around 10°F; winds northwest at 30-35 mph, with gusts to 50 mph.

UNIFIED COMMAND AND PERSONNEL:

Incident Commander: Glenn Guffey, Peter Pan Seafoods

S.O.S.C.: John Brown, ADEC

F.O.S.C.: CPT Jason Fosdick, U.S. Coast Guard

FOR ADDITIONAL INFORMATION CONTACT: Mark Sielaff, ADEC (907) 269-7532
